## Advanced Module 2

eLearning: watch expert lectures in your own time

- Get theoretical knowledge and perspectives on revisions and complications management:
- Safety checklists
- Pre-op complications
- Bleeding
- Postoperative infections

In person case-based discussions and skills workshops:

- Engage with expert faculty and peers discussing cases and participate in hands on workshops on:
- Cases on revisions and complications
- Various surgical approaches and skills such as spinal rod bending, personalised spine surgery, dural repair, craniocervical fixation and lumbosacroiliac fixation

Bring your Own Case: Discuss your own cases with expert faculty and peers

- Synthesise knowledge and apply it to your case and others' cases
- Identify dilemmas and issues
- Recognise and understand diverse perspectives
- Assimilate new ideas, techniques and information to apply in your own settings.
