

How to make your research more relevant, feasible and publishable

### **General Information**

### **EUROSPINE**, the Spine Society of Europe

c/o Pfister Treuhand AG Bankstrasse 4, 8610 Uster-Zurich, Switzerland

W: www.eurospine.org

# **Chair of Research Council and Course Director**

Carmen Vleggeert-Lankamp
E: education@eurospine.org

#### **Director of Education and Research**

Julie-Lyn Noël

E: noel@eurospine.org

#### **Education and Research Manager**

Oriana Pivetta

E: pivetta@eurospine.org

#### **Course Faculty**

Emin Aghayev\*, Switzerland Benjamin Blondel, France Yann-Philippe Charles, France Wolfgang Hitzl\*, Austria Aria Nouri, UK Miranda van Hooff, Netherlands Carmen Vleggeert-Lankamp, Netherlands

## **Research Course Overview**

May – June 2025	12 June 2025	25-26 June 2025	03 July 2025
Part 1 — E-learning  • Enrolment of	Part 2 – Introduction online session  • Introduction online	Part 3 – In-person live session  Live sessions take	Part 4 – Final evaluation online session • Final evaluation:
participants to the EUROSPINE Learning Management System (LMS) by the Education team  Self-paced completion of the e-learning component by participants  Assessment: MCQs that must be passed with a minimum of 70% + CME evaluation  Mode of study: online/distance learning through the LMS  NO physical presence required	session to the course  • Meet and greet with faculty and participants • Meet group members • First breakout workshop • Mode of study: online live via Zoom • Live online participation required	place at IRCAD in Strasbourg, France Live sessions include recap lectures, workshops and group work Participants arrange their own travel / accommodations to take part in the course Mode of study: active in-person participation Physical presence required	Group presentation of developed research protocol  Q and A regarding the protocols Faculty judge the protocol presentations Assessment: CME evaluation after completion of part 2+3 Mode of study: online live via Zoom Live online participation required

# **Quick Facts**

DATES & TIMES	Virtual live session: Introduction  12 June 2025 (18:00-19:30 CEST)  Live session  25 June 2025 (08:30-17:30 CEST)  26 June 2025 (08:30-12:30 CEST)  Virtual live session: Final evaluation  3 July 2025 (18:00-19:30 CEST)
LIVE VENUE	IRCAD, 1 Place de l'Hôpital, 67000 Strasbourg, FRANCE
MAX. ATTENDEES	24 delegates
REGISTRATON FEES	EUROSPINE Member: €800 Non-member: €1000 Student registration: €400
CME CREDITS	In progress
LANGUAGE	English
DRESS CODE	Smart casual
E-LEARNING	A computer (Mac/PC) or tablet (Android/Mac) and stable internet connection are required to access the e-learning content.  In preparation for the live session, a mandatory and self-paced e-learning component will be available from 1 April 2024 on the EUROSPINE Learning Management System (LMS). This component must be completed before the first live session.
COURSE COMPLETION	The course is only deemed as complete when participants have met ALL of the following conditions:  Passed the e-learning with at least 70% AND  Attended the introduction live session AND  Attended the in-person live session AND  Attended the final evaluation live session AND  Submitted the course evaluations for the e-learning and the live sessions component
TARGET AUDIENCE	The course is open to all professionals interested in gaining a basic understanding of clinical research. We expect spine care professionals to join this course. This course will provide an overview of the methodology used to conduct clinical research. The purpose of the course is to provide clinicians with the fundamental concepts and tools to design clinical studies.
IMPORTANT (!)	<ul> <li>Completion of e-learning module is mandatory</li> <li>Attendance of the live session and virtual live sessions is mandatory</li> </ul>

## **PART 1 – E-Learning Programme**

(available from May 2025)

Time/Duration	Торіс		
	Introduction		
00:30	What is a research protocol?		
00:20	What is a good clinically relevant research question? How to develop a research question and hypothesis?		
00:20	Knowledge check questions		
Methodological concepts			
00:20	General methodological concepts and choosing the appropriate design		
00:20	Outcome domains		
00:20	Basic statistical concepts		
Pop	Population selection, study conduct, RCT and cohort study design		
00:20	Planning the population and data collection, power analysis		
00:20	Designing an RCT		
00:20	Designing a cohort study		
00:20	Knowledge check questions		
Data analysis, sample size, publishing research and registries			
00:20	Planning the analysis, overview of statistical methods		
00:20	Planning the sample size, how to deal with missing data		
00:20	Publishing your research		
00:20	Registries		
00:20	Knowledge check questions		

## **PART 2 – Introduction – Virtual Live Session**

	12 June 2025 18:00 – 19:30 CEST	
18:00 - 18:15	Introduction to the course	Carmen Vleggeert-Lankamp
18:15 - 18:25	Get to know your group (4 groups of 6?)	Breakout session 1
18:25 - 18:45	Recap lecture on the research protocol, theories and the research question	Carmen Vleggeert-Lankamp
18:45 - 19:15	Workshop: formulate a research question	Breakout session 2
19:15 - 19:25	Feedback on workshop	All faculty (minimum of 4)
19:25 – 19:30	Wrap up and what to expect on the in-person live sessions	Carmen Vleggeert-Lankamp
END OF SESSION		

# PART 3 – In-person Live Session Programme

DAY 1: 25 June 2025, Wednesday		
8:30 – 17:30 CEST		
Time	Activity	Faculty
8:15 - 8:30	Registration and Coffee	All
8:30 - 8:45	Introduction to the sessions	Carmen Vleggeert-Lankamp
8:45 - 9:00	Recap lecture on study design	Carmen Vleggeert-Lankamp
9:00 – 10:00	Workshop: choose your study	Breakout session 1
	design, start protocol set up	
10:00 - 10:30	Coffee break	
10:30 - 10:45	Recap lecture on RCTs	Carmen Vleggeert-Lankamp
10:45 - 11:00	Recap lecture on outcome domain	Aria Nouri
11:00 - 12:00	Workshop: design your study	Breakout session 2
12:00 - 13:00	Lunch Break	
13:00 - 13:15	Recap lecture on cohort study	Aria Nouri
13:15 - 13:30	Questions of the group	All
13:30 - 14:30	Workshop: planning your study	Breakout session 3
14:30 - 15:00	Coffee break	
15:00 – 15:15	Recap lecture on statistics	Miranda van Hooff
15:15 – 16:15	Workshop: focus group	Breakout session 4
16:15 – 17:15	Plenary: Feedback on workshops,	All faculty and participants
	feasibility	
17:15 – 17:30	Wrap up for the day and what to	Carmen Vleggeert-Lankamp
	expect for Day 2	
END OF SESSION		

DAY 2: 26 June 2025, Thursday 8:30 – 12:30 CEST		
Time	Activity	Faculty
8:15 - 8:30	Coffee	All
8:30 – 8:45	Recap lecture on planning the analysis and sample size	Miranda van Hooff
8:45 – 10:15	Workshop: continue planning your study	Breakout session 5
10:15 – 10:30	Coffee break	
10:30 – 11:15	Workshop: continue planning your study, sample size and completing your protocol	Breakout session 6
11:15 – 11:45	Plenary: Feedback on workshops	All faculty and participants
11:45 – 12:15	Doing and publishing your research – roundtable discussion	All faculty
12:15 – 12:30	Next steps and wrap up of in-person sessions	Carmen Vleggeert- Lankamp

#### **END OF SESSION**

### **PART 4 - Virtual Live Session**

### Final Evaluation: Presentation of Protocols

3 July 2025 18:00 – 19:30 CEST		
18:00 - 18:15	Introduction to the final evaluation	Carmen Vleggeert - Lankamp
18:15 - 19:15	Group presentations	All faculty and participants
19:15 – 19:30	Conclusion	Carmen Vleggeert - Lankamp
END OF COURSE		

### **Learning Outcomes – Course**

At the end of the course, attendees will be able to:

- 1. Develop a research question and formulate a hypothesis
  - What is the problem to be solved?
  - How do I select a conceptual model?
  - How do I develop a research hypothesis?
  - What is the best study design to answer my question?
- 2. Apply basic methodological steps involved in clinical research
  - How do I select my study sample?
  - What outcome measures do I use?
  - How long do I follow my population?
  - When and how often do I measure these variables?
  - How do I collect the data? The need to select valid and reliable methods of data collection.
  - What potential biases may compromise the validity of my study? How do I prevent these biases?
- 3. Develop a study protocol
  - Is my study feasible?
  - How do I make it feasible?
  - What are the clinical issues I have to deal with?
  - With whom do I have to collaborate?
  - What are the elements of a statistical analysis?
  - How many participants do I need in my study?
- 4. Discuss the basic principles of qualitative research
  - When do I use it?
  - What is the added value to clinical research?

- 5. Contribute clinical experience to evidence-based decision making in spinal care
  - Why it is important to standardize data collection in clinical practice?
  - What are the roles of registries?
- 6. Understand the process of research publishing
